

Log Cabin Twist *May Block of the Month*

I thought this would be an easy block to do at the end of the year before people start heading off on summer vacation. I found this block in *Better Homes and Gardens Creative Collection 100 Quilt Blocks Spring 2007* issue. It's an easy pattern and can be done in a night.

This block is to be done in Asian fabrics. There is no specific color requirement except to use a range of light to dark fabrics. We have the below rotary cutting method below or you may choose the alternative piecing method. The alternative piecing method is on the NBQA website.
